

Technical Data Sheet  
Product: **DT037**

THE EDGE  
ON SAFETY

DESCRIPTION

Floor finishing trim strip designed for carpet to vinyl transitions, the curved alternative to DT036. This trim is suitable for 2mm vinyl to carpet, suitable for exterior or interior use. Available in mill finish aluminium. Provides a tidy transitions between vinyl and carpet flooring.

MATERIAL

T6 6063 Alloy aluminium - Mill finish.

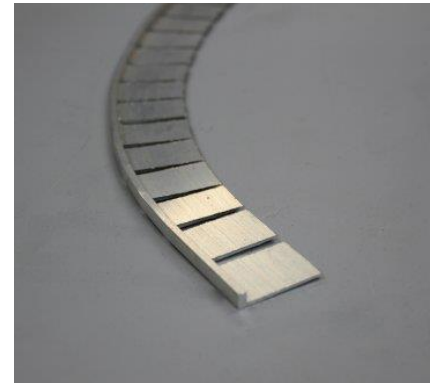

Standard 2.5 Meter Lengths.

DIMENSIONS

EXAMPLE

In this example the difference between DT036 and DT037 can be clearly seen. DT037 is fabricated slightly differently to allow the trim to be contoured on site to match a contoured floor within its specification details.

For PDF and CAD drawings with full dimensions and installation guides, please refer to our website [www.tredsafe.co.nz](http://www.tredsafe.co.nz)

Release: January 2019

Information given in this data sheet is based on the current state of knowledge. This does not exempt the purchaser from carrying out his own careful inspections of incoming goods and their suitability for local building codes. We reserve the right to make changes to the product data in the course of technical progress or due to operationally related further development. Owing to factors beyond our control during application, recommendations given in this data sheet require tests and experiments by the customer. Our recommendations do not exempt the customer from the obligation to check any infringements of third-party rights himself and eliminate them if necessary. The suggestions for product use are not equivalent to a warranty of its suitability for the recommended purpose.

Each new release of this data sheet supersedes the previous one.
