

# Technical Data Sheet

## Product: DT061

THE EDGE  
ON SAFETY

### DESCRIPTION

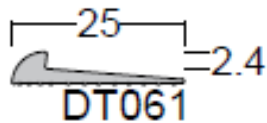

This semi-rigid PVC detail trim provides a finished edge to cover 2mm floor vinyl. The profile is available in light grey, charcoal, black and white. Suitable for interior use only.

### MATERIAL

Semi-rigid PVC. Available in white, black, charcoal and grey.

Supplied in 20 Meter Coils.

### DIMENSIONS

### EXAMPLE

In this example, DT061 has been used as a junction between floor vinyl and the wall. The profile has been adhered with double sided adhesive.

Release: January 2019

Information given in this data sheet is based on the current state of knowledge. This does not exempt the purchaser from carrying out his own careful inspections of incoming goods and their suitability for local building codes. We reserve the right to make changes to the product data in the course of technical progress or due to operationally related further development. Owing to factors beyond our control during application, recommendations given in this data sheet require tests and experiments by the customer. Our recommendations do not exempt the customer from the obligation to check any infringements of third-party rights himself and eliminate them if necessary. The suggestions for product use are not equivalent to a warranty of its suitability for the recommended purpose.

Each new release of this data sheet supersedes the previous one.
