**Jacobsen NZ**

Attention: Andrew French – National Sales Manager Façade Systems

Dear Andrew,

### **Dincel Structural Walling System / Stoanz Ltd**

Stoanz Ltd is delighted to be the provider of render systems to Jacobsen NZ for the Dincel Structural Walling System.

Sto, the render manufacturing company, dates back to 1835 and has been under the same family control since 1945. It is one of the world's largest manufacturers of synthetic/breathable render, paint and façade materials, incorporating the latest technology from Germany. Sto has branches worldwide, in every climate zone, and employs over 100 technicians in research and product development alone. The constant monitoring and improvement of materials ensures the consumer receives the highest quality render system available. Sto has completed more than 400 million square metres of Sto façades worldwide, making it the world leader in this field. Stoanz Ltd has been an authorised partner of Sto for over 20 years and has worked with BRANZ to develop 9 appraised cladding systems to meet the performance requirements of the New Zealand Building Code.

### **StoArmat Render System**

The StoArmat Render System for Dincel Structural Walling incorporates StoArmat synthetic reinforcement render, Stolit K coloured finishing render and StoColor Maxicryl façade paint. StoArmat is the benchmark in reinforcement renders, with unsurpassed flexibility and impact resistance qualities. Stolit K is a water repellent, breathable coloured finishing render in a pail which provides consistency, durability and functionality every time. StoColor Maxicryl is a natural matt, durable paint finish incorporating the latest resin technology from Europe.

When applied by a registered Sto Contractor in accordance with the Sto Specification, the StoArmat Render System for Dincel Structural Walling is backed by a Sto 15 year product warranty with StoService Assurance.

Please don't hesitate to contact your local Architectural Manager or myself for further assistance.
